Press Release

OTS Technologies completes nationwide expansion

OTS expands to strategic areas of growth throughout the United States, providing complete coverage of services to new and existing client base.

Rochester Hills, MI, July 14, 2010: OTS Technologies, Inc. today announced that it has completed the long awaited expansion of operations throughout the continental United States. With locations positioned in strategic market areas, OTS Technologies, Inc. is geared up to offer expanded business and technical support services. Staff has been increased proportionally in order to offer the best coverage available and provide world-class service and support. Existing as well as future clients will now be able to utilize OTS staff much closer to their own locations thereby minimizing previously related travel costs during their engagements.

Keith Knapp, CEO – *“The expansion of OTS, is part of our company’s continued success and by providing our clients with easier access to our staff, we are able to provide quicker service and higher quality support than ever before. OTS is on the precipice of becoming a world-class business and technical services consulting organization. Our goal is to move forward and continue to improve day by day for the sake of not only ourselves but especially for our existing and future clients.”*
